Euronda®
Monoart

Euronda®

It's all about protection

Euronda, synonymous with outstanding protection in the medical field for over 40 years. With an Italian origin and an international vocation, it has four branches operative and sells products in over 100 Countries worldwide. Euronda is one of the benchmark companies for infection control.

Production includes four specific product lines.

Monoart®, a wide range of disposable products, accessories and personal protective equipment that teams maximum product quality with vibrant colours. **Pro System**, the Euronda Total Protection System: a complete line of products to optimise the whole sterilisation process and make it safer. **Alle®**, line of disposable products that has been specially designed to create an uncontaminated sterile field for surgery, thus preventing the risk of infections. **Eurosteril®** is the Euronda line of pouches and rolls dedicated to sterilisation. All Euronda products guarantee maximum quality and protection standards for doctors, professionals and patients.

Eco-friendly

Natura aprons PG30 and Towel Up! have been designed to reduce environmental impact. The paper used to make them contains up to 20% less raw material without increasing consumption of water and energy.

Upcycling

Made from paper obtained through an upcycling process that recovers residues leftover from coffee processing, reducing the use of new cellulose. The carbon footprint of this eco-friendly paper has been reduced by 20%.

Pleasant

Natura aprons PG30 boast a natural shade of ecru and are characterised by their uneven weave and delicate fragrance that comes from the materials used to make them.

Monoart® Towel Up! Natura

Natura Towel Up! towels have been developed to minimise environmental impact, making use of food-processing waste that can be used to replace a proportion of the virgin cellulose fibres used to manufacture them. Thanks to the innovative packaging with a resealable open/close system, the towels are handled one at a time and they stay protected from dust and contamination, for maximum hygiene and highly practical use.

Dimensions:

330 x 450 mm

Packaging:

Box of 50 pieces
Carton of 10 boxes

Monoart® Aprons PG30 Natura

Dimensions:

Roll of 80 aprons:
610 x 530 mm

Roll of 60 aprons:
810 x 530 mm

Packaging:

Carton of 6 rolls

Protective aprons made from paper obtained through an upcycling process that recovers residue leftover from coffee processing, reducing the use of virgin cellulose fibres. The natural colour of the paper—a shade of ecru made unique by its uneven texture—is the result of the combination of cellulose fibres (from FSC-certified supply chains) and coffee-processing residue that has been recovered and re-used as a raw material.

Monoart[®] Disposable Paper Cups Natura

Natura line paper cups are made in Europe and are designed to minimise the environmental impact of the entire manufacturing process, while ensuring that the same features and outstanding performance typical of Monoart[®]'s disposable cups are maintained. Given an A rating by the Aticelca 501 evaluation system, Monoart[®] Natura cups are highly recyclable, water-resistant and safe.

**Capacity:**

210 cc

**Material:**

Paper embossed and bonded with a waterproof polyethylene film

**Colour:**

Ecru with blue Euronda print

**Packaging:**

Bag of 50 pieces
Carton of 20 bags

**Functional**

The paper cups that supplement our Nature line are an effective alternative to classic cups.

**Eco-friendly**

Considered an A-class product based on the Aticelca 501/2017 method, our cup is highly recyclable, despite the polypropylene film inside.

**Sustainable**

Made in Europe to reduce the environmental impact of the whole manufacturing cycle.

Monoart[®] Towel Up!

Monoart[®] Towel Up! disposable towels are made of pure cellulose which is highly absorbent. It is embossed and bonded with a waterproof polyethylene film. Thanks to the innovative packaging with a resealable open/close system, the towels are handled one at a time and they stay protected from dust and contamination, for maximum hygiene and highly practical use.

Colours:

Black, blue, blue lagoon, burgundy, green, light green, grey, light blue, lilac, lime, pink, orange, yellow, white

Dimensions:

330 x 450 mm

Packaging:

Box of 50 pieces
Carton of 10 boxes

Practical

Organize your space and keep your practice tidy, thanks to the compact design and the practical open/close packaging.

Safe

Absorbent, protective glue-free towels with fabric in pure cellulose that comes from a sustainable supply chain. Bonded using heat and embossing to a polyethylene film free of pollutants.

Hygienic

100% automated from the production line to the dental practice, the innovative open/close system reduces the risk of contamination.

Monoart[®] Towel Up! Floral

Monoart[®] Towel Up! disposable towels are made of pure cellulose which is highly absorbent. It is embossed and bonded with a waterproof polyethylene film. Thanks to the innovative packaging with a resealable open/close system, the towels are handled one at a time and they stay protected from dust and contamination, for maximum hygiene and highly practical use. Bring a blast of colour, design and vibrancy to your dental practice with their floral pattern.

Colours:

Floral light blue, floral lilac, floral lime, floral pink

Dimensions:

330 x 450 mm

Packaging:

Box of 50 pieces
Carton of 10 boxes

Mix & Match

Euronda is expanding its floral range, allowing you to mix and match towels, plastic cups and masks in four different colours, for elegant eye-catching style that will make all the difference.

Colourful

They come in the original floral pattern, available in four bright colours, to give a unique look to every dental practice.

Safe

Absorbent, protective glue-free towels with fabric in pure cellulose that comes from a sustainable supply chain. Bonded using heat and embossing to a polyethylene film free of pollutants.

Practical

The copper-clad wire is integrated in the tube to keep it at the set angle and ensure it won't protrude when bent.

Safe

Made of non-toxic PVC without DOP and phthalates, Class II a Medical Devices with no expiry date.

Comfortable

With rounded fixed or removable tips that won't irritate mucous membranes.

Monoart[®] Saliva Ejectors EM15

Disposable, flexible saliva ejectors made of non-toxic, transparent PVC. The integrated metal wire perfectly holds them at the required angle and never protrudes during the bending process. Fixed or removable rounded tips are ideal for work on irritated mucous membranes.

Mix Monoart[®] Saliva Ejectors: 12 saliva ejector bags (100 pcs) in six Colours, two bags per Colour (blue, lilac, lime, orange, pink, yellow)

CE Type Ref: MONOART[®] ASPIRASALIVA EM15, EM15 SALIVA EJECTOR, EM15 SPEICHELSAUGER

Colours:

Blue, blue lagoon, burgundy, green, lilac, lime, pink, orange, transparent, yellow

Packaging:

Bag of 100 pieces
Carton of 50 bags

Monoart[®] Adapter for Saliva Ejector

Safe, practical and autoclavable adapter for saliva ejector. Can be sterilized in autoclave at 134°C.

CE Type Ref : ADATTATORE PER SALIVA, ADAPTER POR SALIVA EJECTORS, ADAPTER FÜR SPEICHELSAUGER

Classification:

Medical Device Class II a

Packaging:

Bag of 10 pieces

Eco-friendly

Monoart® Aspirator Tips can go through up to 100 cycles in an autoclave at up to 134°C.

Comfortable

With a smaller contact surface thanks to the smaller end “brims” and fewer curves, the tips offer greater patient comfort.

Effective

The smooth interiors of the tips allow liquids to flow more easily.

Monoart[®] EM19 Evo Aspirator Tips

Monoart[®] EM19 Evo universal tips for surgical aspirators are recommended for procedures on adults. Ergonomic, non-slip grips make work easier for staff, while the linear shape keeps them quiet and promotes better hygiene and cleaning. EM19 Evo tips give outstanding patient comfort thanks to their rounded shape. They can be sterilized in autoclaves at up to 134°C.

 **CE Type Ref:** MONOART[®] EM19

Classification:

Medical Device Class II a

Dimensions:

Connection diameter:
16 mm; Length: 114 mm

Colours:

Blue, burgundy, green,
grey, lilac, lime, pink,
orange, yellow

Packaging:

Box of 10 pieces
of the same colour

Safe

The grooves are more extensive and reach all of the way to the end, for better grip.

Ergonomic

The tips are shorter and bent towards the end, for better control of operations on patients.

Silent

The angle of approximately 16° in the tips makes aspiration quieter.

Monoart[®] EM21 Evo Aspirator Tips

Monoart[®] EM21 Evo universal tips for surgical aspirators are recommended for procedures on cavities that are difficult to access. Ergonomic, non-slip grips make work easier for staff, while the linear shape keeps them quiet and promotes better hygiene and cleaning. They can be sterilized in autoclaves at up to 134°C.

Monoart[®] Disposable Latex Gloves

Safe, comfortable and durable: Monoart[®] disposable latex gloves provide hygienic, comfortable protection for hands. They are easy to wear, stretchy and guarantee outstanding tactile sensitivity. In addition, the rough micro-texture on the surface gives superb grip in all conditions, so they are ideal for working with complete peace of mind during operations of all kinds. Monoart[®] latex gloves come in a range of bright colours to give a unique look to every dental practice.

Classification:

Personal Protective Equipment - Category III

Available sizes:

XS, S, M, L

Colours:

Lime, blue, lilac, pink

Packaging:

Box of 100 gloves
Carton of 10 boxes

CE Type Ref: MONOART[®] LATEX GLOVES

Safe

They provide an exceptional protective barrier against contamination and infection and they do not contain lubricant powders, chemical residue and endotoxins, which are often responsible for the respiratory symptoms caused by latex.

Certified

They comply with strict quality control criteria. They are certified in accordance with the international directive UE 2016/425 and with EN ISO 374-1, EN 374-4, EN ISO 374-5.

Durable

They are water, acid and alkali resistant and they provide good protection against micro-organisms and the majority of caustic substances and cleaning products.

Monoart[®] Nitrile Gloves

The Monoart[®] disposable nitrile gloves, conceived as an alternative for users allergic to latex proteins, provide an exceptional protective barrier against contamination and infections. They offer extraordinary mechanical and chemical resistance, making them suitable for all those situations in which there is a risk of perforation, cuts, piercing or handling particularly aggressive chemicals. The quality materials also guarantee excellent tactile sensitivity, while the micro-rough texture ensures excellent grip in all conditions.

CE Type Ref: MONOART[®] NITRILE GLOVES

Classification:

Personal Protective
Equipment - Category III

Available sizes:

XS, S, M, L

Colours:

Black

Packaging:

Box of 100 gloves
Carton of 10 boxes

Ergonomic

With a rounded edge and a secure grip.

Capacious

Available in 166 cc (white only) and 200 cc (multicolour) versions.

Resistant

Made from a certified, hygienic and practical plastic material.

Monoart® Plastic Cups Coloured

Disposable plastic cups with rounded edges and a capacity of 200 cc made from non-toxic polypropylene, for enhanced resistance and reliability. All the polypropylene cups will bear an embossed company logo, testifying to their high quality and safety standards Euronda. Available in numerous colours to customize your dental practice.

Mix Monoart® Plastic Cups 1000: 1000 cups in six different colors (200 lime, 200 lilac, 150 green, 150 light blue, 150 pink).

Capacity:

200 cc (multicolour)
166 cc (white)

Colours:

Black, blue, blue lagoon, green, grey, light blue, lilac, lime, pink, purple, orange, red, yellow, white

Packaging:

Bag of 100 pieces
Carton of 30 bags

Quality

All the new polypropylene cups will bear an embossed company logo, testifying to their high quality and safety standards Euronda.

Fashion

Bring a blast of colour, design and vibrancy to your dental practice with their floral pattern.

Resistant

Made with polypropylene instead of polystyrene. Unaltered capacity and ergonomics, but enhanced resistance and reliability.

Monoart[®] Plastic Cups Floral

200 cc disposable polypropilene cups with rounded edges and a floral pattern. Bring a blast of colour, design and vibrancy to your dental practice with their floral pattern.

**Capacity:**

200 cc

**Colours:**

Floral light blue, floral lilac,
floral lime, floral pink

**Packaging:**

Bag of 100 pieces
Carton of 30 bags

Safe

Class I Medical Device, ideal for protection from dust and aerosols, in accordance with the EN 14683 standard and with the ASTM F 2100.

Comfortable

Internal lining in non-woven hydrophilic fabric and built-in nose bridge - absorbency and comfort in a single medical device.

Practical

New package with an "open/close" system offers maximum practicality of use and preserves the integrity of the masks.

Monoart® Face Masks Protection 3

Disposable, hypo-allergenic face mask with three layers in three different materials:

- Soft, coloured and water-repellent non-woven fabric for improved protection against dust and humidity;
- PFE (Particle Filtration Efficiency) filter and BFE (Bacterial Filtration Efficiency) filter $\geq 99\%$;
- Comfortable non-woven cotton lining for extra absorbance of sweat and humidity.

It is ideal for protection from dust and aerosols: $\Delta P < 2.7 \text{ mm H}_2\text{O/cm}^2$ in accordance with the EN 14683 standard (differential pressure: surgical mask breathability rating). Built-in nose bridge.

Classification:

Medical Device Class I
EN 14683: Type II
ASTM F2100: Level I

Colours:

Blue lagoon, green, light blue, lilac, lime, pink, orange, yellow, white

Packaging:

Box of 50 masks with an "open/close" system.
Carton of 20 boxes

Mix Monoart® Face Masks Protection 3: six boxes of face masks Protection 3 (50 pcs), one box per colour, (light blue, lilac, lime, pink, orange, yellow)

CE Type Ref: MONOART® FACE MASK PROTECTION 3

Soft coloured and water repellent non-woven fabric

Particle and bacterial filters
PFE and BFE $> 99\%$

Comfortable non-woven cotton

Monoart® Face Masks Protection 3 Floral

Disposable hypo-allergenic face mask, composed by four layers in three different materials:

- Soft, coloured and water-repellent non-woven fabric with floral motifs;
- PFE (Particle Filtration Efficiency) filter and BFE (Bacterial Filtration Efficiency) $\geq 99\%$;
- Two layers of comfortable, absorbent non-woven fabric lining for effective absorption of sweat and moisture.

It is ideal for protection from dust and aerosols: $\Delta P \leq 3.0 \text{ mm H}_2\text{O}/\text{cm}^2$ in accordance with the EN 14683 standard (differential pressure: surgical mask breathability rating). Built-in nose bridge.

Classification:

Medical Device Class I
EN 14683: Type IIR
ASTM F2100: Level III

Colours:

Floral burgundy, floral light blue, floral lilac, floral lime, floral pink,

Packaging:

Box of 50 masks with an "open/close" system.
Carton of 20 boxes

CE Type Ref : MONOART® FACE MASK PROTECTION 3

Monoart[®] Face Masks Protection 4

Disposable, hypo-allergenic face mask with four layers in four different materials:

- Soft, colourful water-repellent non-woven fabric for unparalleled protection from dust and moisture;
- PFE (Particle Filtration Efficiency) filter and BFE (Bacterial Filtration Efficiency) filter $\geq 99\%$;
- Polymeric filter for excellent fluid resistance, 160 mm Hg;
- Comfortable non-woven cotton lining for extra absorbance of sweat and humidity when used by operators.

It is ideal for protection from dust and aerosols: $\Delta P < 2.9 \text{ mm H}_2\text{O}/\text{cm}^2$ in accordance with the EN 14683 standard (differential pressure: surgical mask breathability rating). Built-in nose bridge.

Classification:

Medical Device Class I
EN 14683: Type IIR
ASTM F2100: Level III

Colours:

Black, green, light blue, orange

Packaging:

Box of 50 masks with an "open/close" system.
Carton of 20 boxes

CE Type Ref: MONOART[®] FACE MASK PROTECTION 4

Comfortable

Internal lining in hydrophilic NWF, Perfect-Fit system, externally welded elasticated ties and an elongated nose bridge for an extremely close comfortable fit.

Practical

New package with an "open/close" system offers maximum practicality of use and preserves the integrity of the masks.

Hypo-allergenic

Developed to deliver the safety levels of hypo-allergenic materials which have been carefully sourced to respect sensitive skins and avoid the risk of irritation and dermatitis.

Monoart[®] Face Masks Protection 4 Sensitive

The Monoart[®] Protection 4 Sensitive Face Masks have been developed to offer total operational protection, but they also deliver the safety levels of hypo-allergenic materials which have been carefully sourced to respect sensitive skins and avoid the risk of irritation and dermatitis.

Made up of four layers of four different materials:

- Soft and colourful water-repellent NWF for optimal protection against dust, powder and residue.
- A particulate filter (PFE, Particle Filtration Efficiency) and a bacterial filter (BFE, Bacterial Filtration Efficiency) $\geq 99\%$.
- Improved hydrophobic layer for excellent fluid resistance: ≥ 160 mm Hg.
- Comfortable absorbent hypoallergenic cellulose layer in contact with the skin, for effective absorption of sweat and humidity.

Classification:

Medical Device Class I
EN 14683: Type IIR
ASTM F2100: Level III

Colour:

Light Blue

Packaging:

Box of 50 masks with an “open/close” system.
Carton of 20 boxes

CE Type Ref: MONOART[®] FACE MASK PROTECTION 4 SENSITIVE

Soft coloured and water repellent non-woven fabric

Polymeric fluid resistant filter

Particle and bacterial filters PFE and BFE $\geq 99\%$

Comfortable absorbent hypoallergenic cellulose layer

Monoart[®] Face Mask Certifications

ASTM F 2100 Standards

ASTM F 2100 is the standard for face masks used in health care facilities. It defines the minimum performance requirements for face masks used to protect health care workers from the respiratory secretions of patients.

ASTM F 2100 defines two types of face masks: Type I and Type II. Type I masks are used for general patient care, while Type II masks are used for high-risk procedures.

ASTM F 2100 defines three levels of protection: Protection 3, Protection 4, and Protection 4 Sensitive. Protection 3 masks are used for general patient care, while Protection 4 and Protection 4 Sensitive masks are used for high-risk procedures.

All the Monoart[®] Face Masks are class I medical devices, compliant with the ASTM F 2100 standards, according to the EN 14683 standard. Monoart[®] Protection 3 are Type II, while Monoart[®] Protection 3 Floral, Protection 4 and Protection 4 Sensitive Masks are of type IIR.

The resistance of the Monoart[®] Face Masks to the penetration of splashing liquids has been tested according to the ASTM F1862 standard, and is compliant, as requested by the European standard EN 14683, with the values below:

Test	Type I	Type II - PTC3	Tipo IIR - PTC3 Floral, PTC4 and PTC4 Sensitive
Bacterial filtration efficiency (BFE) (%)	≥ 95	≥ 98	≥ 98
Differential pressure (Pa/cm ²)	< 29,4	< 29,4	< 49,0
Splash resistance pressure (mm Hg)	Not required	Not required	≥ 120

Why use the face mask?

The face mask offers protection from the chemical substances used during surgery and reduces the risk of contamination from viruses and bacteria that can cause infections in both professionals and patients.

How to use the face mask correctly?

The mask must adhere well to the face and remain dry at all times.

When to change the face mask

The mask must be changed if it is exposed to nebulised substances, or if it gets wet, and in any case for each patient treated.

EURO

Monoart® Bandana

Pleasant and comfortable to wear, this cotton bandana has adjustable ties and can fit all sizes. Thanks to the top-quality, colour-fast cotton used, it is autoclavable at 121°C. Choose the ideal colour to match your style.

Mix Monoart® Bandana: ten bandanas, one per colour (black, blue, green, light blue, lilac, lime, orange, pink, yellow, white)

CE Type Ref: MONOART® BANDANA

Classification:

Personal Protective Equipment (European Directive UE 2016/425)

Colours:

Black, blue, emerald green, green, light blue, lilac, lime, orange, pink, yellow, white

Packaging:

Single pack
Carton of 10 pieces of the same colour

Comfortable

Cotton, comfortable to wear bandanas.

Autoclavable

Autoclavable at 121°C thanks to the top-quality cotton used.

Fits all sizes

They can fit all sizes thanks to their adjustable ties.

Comfortable

Made of soft, hypo-allergenic and breathable non-woven polypropylene fabric.

Hygienic

Daily dentist chair protection for patient safety.

Universal

A headrest cover, backrest cover and seat cover are all included. It can be adjusted to fit all dentist chairs thanks to the stretchy edges and the ties.

Kit Monoart[®] Dentist Chair Cover

A disposable universal dentist chair cover for the protection and safety of patients. It is made of soft non-woven polypropylene fabric, which is hypo-allergenic and breathable. The kit contains a headrest cover, a backrest cover and a seat cover that are all made of 30 g/m² non-woven fabric. Its universal size perfectly fits all dentist chair models thanks to the stretchy edges and the ties, which make it extremely versatile.

Colours:

Blue, green, light blue, lilac, lime, orange, yellow, white

Packaging:

Bag of 1 dentist chair cover kit
Carton of 25 single colour bags

Monoart[®] Headrest Cover

Polyethylene headrest cover, with cellulose exterior and polyethylene lining. In a practical dispenser.

Colours:

Green, light blue, white

Dimensions:

280 x 300 mm

Packaging:

Box of 250 pieces
Carton of 8 boxes

Monoart[®] Tray Paper

Chlorine-, dioxin- and ash-free crinkled paper that is permeable to steam and gas. Thanks to its advanced technical features, steam does not disintegrate or weaken this paper, so it is ideal for lining trays.

Colours:

White, yellow, orange, pink, lilac, light blue, green, lime

Dimensions:

280 x 180 mm

Packaging:

Box of 250 pieces
Carton of 10 boxes

Practical

The ideal base for the bottom of a tray.

Resistant

Permeable to steam and gas.

Safe

Chlorine- and dioxin-free.

Ergonomic

The innovative system with laces, allows to tie the apron directly to the patient's neck.

Colourful

They come in numerous colours that can be matched with other Monoart® products.

Protective

Practical shape that perfectly covers the patient's neck and shoulders.

Monoart[®] Apron PG30

A roll of disposable aprons for patient protection. They are made of a layer of highly absorbent paper and a layer of waterproof polyethylene, which are bonded and embossed. Unlike traditional towels, they provide perfect protection for patients thanks to their large size and the specially shaped neck and shoulder sections.

Dimensions:

Roll of 80 aprons:
610 x 530 mm

Roll of 60 aprons:

Carton of 30 boxes

CE Type Ref: MONOART® RULLI DI COTONE, COTTON ROLLS, WATTERROLLEN

Monoart® Cotton Rolls Dispenser

A practical dispenser for cotton rolls.

Colours:
White, light blue

Monoart® Instant Ice

Thanks to its exclusive formula, Euronda Monoart® K2P-Cellulose is one of the best products of its kind on the market in terms of the cold produced, duration, functionality, patient safety and the aesthetic appeal of the packaging. The mixture of nitrogenous salts guarantees better quality and longer lasting cooling, while the smaller size of the bag gives greater concentration in the treatment zone and takes up less space. The material in K2P-Cellulose guarantees better tactile sensitivity and pleasant effect when on contact with the patient's skin.

Classification:

Medical Device Class II a

Size:

150 x 175 mm

Packaging:

Carton of 24 bags

Shelf life:

Five years

CE Type Ref: MONOART® GHIACCIO Istantaneo,
INSTANT ICE, KÄLTEKOMPRESSE

Monoart® Spray Ice

Cooling spray in a 200 ml aerosol. Ideal for cooling materials (impression, etc...)

Classification:

Medical Device Class I

Packaging:

Carton of 12 cans

Shelf life:

Three years

Monoart[®] Barrier Film

Disposable film for the protection of areas and surfaces, especially those difficult to reach, clean or disinfect. The light adhesive of the barrier film adheres easily to surfaces without leaving any residue. The barrier film has a non-adhesive edge on both sides, to simplify placement and removal. The use of the barrier film reduces the risk of cross-contamination caused by aerosol and spraying. The pack contains one roll of 1200 tear-off 100 x 150 mm sheets with dispenser.

Classification:

DM Class I

Dimension:

100 x 150 mm

Colour:

Blu

Packaging:

Single pack

CE Type Ref: MONOART[®] BARRIER FILM

Monoart® Towel dispenser

Practical dispenser for disposable towels.

Colour:
White

Dimensions:
165 x 165 x 125 mm

Monoart® Metal Chain for Towel

Adjustable metal chain for towel.

Length:
Ca. 45 cm

Packaging:
Single pack

Monoart® Plastic Cups Dispenser

Wall-mounted handy dispenser for plastic cups. It contains up to 70 coloured Monoart® plastic cups with a capacity of 200 cc, or up to 90 white Monoart® plastic cups with a capacity of 166 cc.

Colour:
White with transparent
smoky shade body

Monoart[®] Rubber Dam

Pure latex rubber dam, medium thickness.

CE Type Ref: DIGA DENTALE, RUBBER DAM,
KOFFERDAMM

Classification:
Medical Device Class I

Colours:
Grey, green

Packaging:
Box of 36 pieces

Mixing Bowls

A varied selection of green mixing bowls.

Mixing bowl n.1 (small)

Diameter: 110 mm
Height: 75 mm

Mixing bowl n.2 (medium)

Diameter: 125 mm
Height: 90 mm

Mixing bowl n.3 (large)

Diameter: 140 mm
Height: 112 mm

Mixing bowl n.4 (maxi)

Diameter: 165 mm
Height: 154 mm

Bur Blocks

Bur blocks for dentists with autoclavable base.

Bur blocks with
autoclavable base for:
18FG, 18RA or
18 FG RA mixed.

Bur blocks with
autoclavable base for:
36FG, 36RA or
36 FG RA mixed.

Bur blocks with
autoclavable base for:
72FG, 72RA or
72 FG RA mixed.

Monoart[®] Facial Tissue

Facial tissue made from two plies of pure cellulose paper, soft and resistant.

Colour:

White

Dimensions:

200 x 210 mm

Packaging:

Single pack (100 tissues)
Carton of 40 boxes

Kit Monoart[®] Infection Control

A safe barrier against infections.

Practical Kit containing:

- 50 Monoart[®] Apron
- 50 Monoart[®] Face mask Protection 3
- 2 Monoart[®] Bandana
- 2 Monoart[®] Ultra Light glasses
- 2 Monoart[®] Gowns
- 1 pair of cut proof gloves

Packaging:

1 carton containing 1 Kit

Monoart[®] Gown

Gown with zip, mandarin collar and elastic cuffs for the total protection of the operator.

Classification:
Personal Protection
Equipment

Colour:
White

Packaging:
Carton of 25 pieces

Monoart[®] Apron

Practical disposable polyethylene apron with a comfortable fit to protect operators.

Colour:
White

Dimensions:
80x110 cm

Packaging:
Bag of 50 pieces
Carton of 9 bags

Cut Proof Gloves

Antiallergic gloves with anti-slip surface and a shaped form for higher comfort, sensitivity and protection for the user. It stands punctures, and protects against aggressive chemicals, solvents and oils. With linen nitrile, it can be sterilized in the autoclave and it is latex free. Available sizes: S and M.

Classification:
Personal Protection
Equipment

Colour:
Violet

Packaging:
Bag of 1 pair
Carton of 9 bags

Monoart[®] Contemporary Glasses

New

Design by

 **UNIVET**
OPTICAL TECHNOLOGIES

Our Contemporary glasses offer the perfect combination of elegance, protection, comfort and style. Lightweight and very strong, Contemporary glasses are the perfect protective solution for doctors and assistants. The anti-fog treatment makes the lenses twice as effective against condensation, while the anti-scratch treatment is five times as resistant to abrasions. All of this comes together with the exclusive, refined design, boasting a glossy black frame.

Colour:

Transparent and black frame

Weight:

29 g

Iconic

A bold yet elegant design made distinctive by the balance of shape, colour and light.

Lightweight

Made entirely from Nylon PA12 without any metal used, these are lighter and more comfortable as a result, even for prolonged use.

Protective

The side lenses provide maximum protection.

Comfortable

The patented SoftPad frame stems offer greater protection, stability and adaptability to the face and can be adjusted to three different lengths. The lenses in the orange models reduce eye fatigue.

Resistant

Permanent Univet Double Coating prevents fogging inside the lenses (pursuant to requirement N of the EN 166 standard) and scratching outside (pursuant to requirement K of the EN 166 standard). No more scratches or fogging, for outstanding performance.

Ergonomic

They are extremely light and have non-slip nose bridges. Versions for fitting over corrective glasses are also available.

Monoart[®] Protective Glasses

Design by
UNIVET
OPTICAL TECHNOLOGIES

Monoart[®] protective glasses for staff and patients are designed and made to combine maximum safety in every situation with exceptional comfort and stylish designs.

Anti Scratch

Basic Anti-scratch treatment protects against scratches and abrasions.
*K Anti-scratch treatment

Anti Scratch Plus

Anti-Scratch Plus treatment constitutes a barrier against surface damage, it protects against scratches and abrasions. It is certified according to the requirement of EN 166 "K".

Anti Fog

Basic Anti-fog treatment that prevents the formation of condensation.
*N Anti-fog treatment

Anti Fog Plus

Anti-Fog Plus treatment is a permanent treatment that prevents the formation of condensation. It is certified according to the requirement of EN 166 "N".

Over-glasses

Can be positioned over any corrective glasses.

Univet Double Coating

The revolutionary coating created through UDC technology provides to your eyewear superior resistance from scratches (outside the lens) and fogging (inside the lens) for outstanding performance in any working condition. Both anti fog and anti scratch treatments are permanent and assure to the product an highly superior performance to EN 166 standards.

SoftPad technology

SoftPad is a patented terminal that has been added to the legs of the eyewear to offer comfort and protection. Thanks to the innovative use of materials and a meticulous design, the ergonomics of these glasses reach a new level of comfort, providing perfect stability to the safety glasses and full adaptability to the face of the user. In addition to the length adjustment in three positions, the SoftPad system has a further tilting movement that allows the device to perfectly fit the user's head.

Orange lens

The orange lens protects against impacts, UV rays and blue light (525 nm). It improves contrast and enhances visual sharpness to reduce eye fatigue. Ideal for use during dental composite polymerization.

Monoart[®] Cube Cube Orange Glasses

Over-glasses for staff with a cutting-edge design featuring a wrap-around square shape. Adjustable length temples guarantee an excellent comfort and memorise the desired shape of the user thanks to the SoftPad technology. Available in two versions:

- **Cube:** cTransparent optically checked polycarbonate lens, providing a 180 degree view.
- **Cube Orange:** the orange lens protects against impacts, UV400 (sunlight) rays and UV25 blue light rays (polymerization lamps).

Colours:

Cube: white and blue frame

Cube Orange: black and orange frame

Weight:

37 g

Monoart[®] Stretch Stretch Orange Glasses

The frame is designed to buffer the contact points between the glasses and the face. The ultra-flexible, sporty design is extremely twist proof. There is an eyebrow ventilation system and a wrap-around lens to give extra protection around the eyes. Available in two versions:

- **Stretch:** with heavy-duty, optically controlled transparent lens, protects against UV400 rays (sunlight).
- **Stretch Orange:** with heavy-duty, optically controlled orange lens protects against UV400 rays and UV525 rays (polymerization lamps).

Colours:

Stretch: white and blue frame

Stretch Orange: black and orange frame

Weight:

26 g

Monoart[®] Evolution Evolution Orange Glasses

Glasses for staff and patients with a lightweight, modern design. The temples are made from over-moulded material and feature a memory system that keeps them in the desired shape. Equipped with a non-slip rubber nose bridge for maximum comfort. Available in two versions:

- **Evolution:** transparent lens made of heavy-duty polycarbonate that protects against impacts and UV rays.
- **Evolution Orange:** orange lens is made of heavy-duty polycarbonate that protects against impacts, UV rays and blue light (525 nm).

Colours:

Evolution: white and grey frame

Evolution Orange: black and orange frame

Weight:

37 g

Monoart[®] FitUp Glasses

Enveloping glasses for operators, guaranteeing maximum protection and visibility. Complete with temples adjustable in length and tilt and a soft, non-slip nose bridge, FitUp glasses stand out thanks to their exceptional comfort and fit. High-strength lenses with anti-fog and anti-scratch treatment. Available in two colours: see-through green frame or see-through pink frame.

Colours:

FitUp Pink: transparent and pink frame

FitUp Green: transparent and green frame

Weight:

25 g

Monoart[®] Spheric Glasses

Glasses for staff and patients with a single, optically controlled spherical polycarbonate lens that offers a 180° field of view. The length and angle of the temples are adjustable. They are made from over-moulded material that guarantees excellent fit and comfort. Polycarbonate nose bridge. Neutral, colourless anti-scratch and anti-fogging lenses protect against impacts and UV rays.

Colours:

Transparent and black frame

Weight:

36 g

Monoart[®] Light Light Orange Glasses

Over-glasses for patients and staff, basic line with air ventilation system incorporated in the side protections. Available in two versions:

- **Light:** with single lens in optically checked polycarbonate that protects against impact and UV rays.
- **Light Orange:** orange lens protects against impacts, UV rays and blue light. The length and angle of the temples, made from over-moulded material, can be adjusted and guarantee excellent fit and comfort.

Colours:

Light: transparent frame

Light Orange: orange and black frame

Weight:

43 g

Monoart® Zero Glasses

Boasting a minimalist design, these protective glasses for operators and patients stand out for being as simplistic as they are efficient and as light as they are resistant. Made entirely from polycarbonate, they are practical, easy to handle and highly comfortable thanks to the reduced-section temples. It is the lightest pair of glasses in the entire Monoart® range.

Colours:

Transparent frame

Weight:

19 g

Monoart® Ultra Light Glasses

Protective glasses for staff and patients, with ergonomic, adjustable length temples, protection incorporated within the lens, a polycarbonate nose bridge and eyebrow protection. The colourless lens protects against impacts and UV rays to guarantee optimum visibility.

Colours:

Pink and transparent frame

Weight:

25 g

Monoart® Baby Orange Glasses

Lightweight, easy-to-manage glasses for children. 100% polycarbonate, with black temples and an orange lens that protects against UV and UV525 (blue light) rays. Basic anti-fog treatment.

Colours:

Orange and black frame

Weight:

23 g

Small Operator Visor

Disposable short operator visor designed to cover the eyes and cheekbones. Ultra-lightweight. Replaceable transparent neutral shields. Frames included in a pack: yellow, blue, green, pink and black.

Classification:
Personal Protection Equipment

Colours:
Black, blue, green, pink, yellow frames

Weight:
9 g

Packaging:
Carton of 5 visors with 20 shields

Monoart[®] Operator Visor

Disposable operator visor with transparent frame and replaceable shield. Transparent and anti-fog disposable shield. Ultra light visor.

Classification:
Personal Protection Equipment

Colour:
Transparent frame

Weight:
25 g

Packaging:
Box of 10 visor with 10 x 10 shields or refill with 20 shields

Eyewear marking

Added to personal protective equipments (PPE) the marking guarantees respect of current safety regulations. Required by the law, the marking is added both on the lens, to identify scale number, manufacturer, optical class, mechanical resistance and optional requirements, and on the frame to identify manufacturer, reference normative and mechanical resistance.

European Normatives

EN 166 Personal eye-protection - Specifications
EN 167 Personal eye-protection - Optical test methods
EN 170 Personal eye-protection - Ultraviolet filters. Transmittance requirements and recommended use.

Euronda is the exclusive distributor of Univet products in the dental field.

Eurosteril® Sterilization Rolls

Eurosteril® sterilization rolls are made of the best certified materials: heavy weight medical paper (60 g/m²) and a double layer of light blue polyester/polypropylene film. This gives them a guaranteed seal during sterilization, makes them extremely easy to open without releasing fibres or tearing, and offers maximum microbial protection. In addition, the chemical colour indicators signal a successfully completed cycle in the autoclave, thus guaranteeing maximum safety for patients.

Classification:

Medical Device Class I

Packaging:

5 cm x 200 m (8 pcs)
7,5 cm x 200 m (5 pcs)
10 cm x 200 m (4 pcs)
15 cm x 200 m (2 pcs)
20 cm x 200 m (2 pcs)
25 cm x 200 m (1 pc)
30 cm x 200 m (1 pc)
40 cm x 200 m (1 pc)

Mix Eurosteril®: composed by two rolls 5 cm, two rolls 7,5 cm, one roll 10 cm

Six months sterility from the date of production in ideal storage conditions and subject to validation of the sterilisation and sealing process

CE Type Ref: EUROSTERIL® ROTOLI PER STERILIZZAZIONE, STERILIZATION ROLLS, STERILISATIONS ROLLEN

Eurosteril® Gusseted Rolls

Practical Mix of rolls made of medical high weight paper (60 g/m²) and double layer film of polyester/polypropylene.

Classification:

Medical Device Class I

Packaging:

20 cm x 5 x 100 m (2 pcs)
25 cm x 5 x 100 m (1 pc)
25 cm x 6,5 x 100 m (1 pc)

Six months sterility from the date of production in ideal storage conditions and subject to validation of the sterilisation and sealing process

CE Type Ref: EUROSTERIL® ROTOLI PER STERILIZZAZIONE, STERILIZATION ROLLS, STERILISATIONS ROLLEN

Eurosteril® Sterilization Pouches

Thermal-welding standard sterilization pouches made of heavy weight (60 g/m²) white medical paper coupled with a light blue polyester/polypropylene layer. Three sided weldings with impermeable and uniform canals for the highest microbe protection. The changing chemical colour indicators verify the sterilization process by steam or EO gas (ethylene oxide). Appropriate peeling without the release of paper fibres or laceration of the film at the moment of opening the packaging.

Classification:

Medical Device Class I

Packaging:

5 x 25 cm (500 pcs)

7,5 x 25 cm (500 pcs)

10 x 25 cm (500 pcs)

Six months sterility from the date of production in ideal storage conditions and subject to validation of the sterilisation and sealing process

CE Type Ref: EUROSTERIL® BUSTE PER STERILIZZAZIONE, STERILIZATION POUCHES, STERILISATIONS BEUTEL

Eurosteril® Self-adhesive Sterilization Pouches

The same materials and technical features as the thermal-welding sterilisation pouches, with the addition of a practical synthetic rubber adhesive band and closing fold.

Classification:

Medical Device Class I

Packaging:

9 x 25 cm

(200 pcs x 9 boxes)

14 x 26 cm

(200 pcs x 6 boxes)

19 x 33 cm

(200 pcs x 5 boxes)
